March 27, 2026

The Honorable Tom Cole  
Chairman,  
Committee on Appropriations  
H-305, the Capitol  
Washington, DC 20515

The Honorable Rosa DeLauro  
Ranking Member,  
Committee on Appropriations  
1036 Longworth HOB  
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Harris County Comprehensive Community Health Center Expansion – Pasadena Square project in Fiscal Year 2027. The entity to receive funding for this project is Harris County, TX located at 406 Caroline St, Houston, TX 77002. The funding would be used to support the construction, equipping, and outfitting of a new comprehensive community health center which would expand access to essential medical and rehabilitative services for the residents of Harris County, TX. The project is an appropriate use of taxpayer funds because it would expand access to essential medical and rehabilitative services for the constituents of Texas's 29th Congressional District, one of the most economically and medically underserved areas in Harris County, TX. The new facility will also increase local capacity to meet growing demand for primary and specialty care in a district of approximately 756,000 residents.

The project has a federal nexus because the funding provided is for purposes authorized under the Public Health Service Act.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

Member of Congress
